Exploring newspapers on Findmypast

Click on search in the top tab of the Findmypast homepage – this will give you several record sets to search from.

Select 'Newspapers and periodicals' to search the BNA.

Use Who to enter a first and last name.

Use What else? to enter a location, keyword, occupation, or phrase.

Top tip: start broad, and then filter! Begin by searching for a name or keyword, and gradually include additional information (such as a location) to narrow your results.

These filters can easily refine and narrow your results by newspaper title, publication date or region.
