Gale in Context Databases

Available individually, Gale in Context databases support students with current, authoritative, media-rich information

**Environmental Studies**

High quality information and multi-media content on all aspects of sustainability and the environment, from global warming, to food safety, to health care access.

**Global Issues**

A multidisciplinary resource that helps students understand current world issues, conflicts and events from a global perspective. Updated daily with the latest news.

**Opposing Viewpoints**

Differing perspectives on topical issues helping students develop critical-thinking and information literacy skills, and to draw their own informed conclusions.

**Science**

Combining contextual information on significant science topics with today’s headlines to show how scientific disciplines relate to real-world issues.
World History
Taking learners from the ancient world to today's headlines by delivering a chronicle of the great cultures and societies that have formed the history of the human race.

ReadSpeaker Technology
On-demand text translation into 12 languages, and ReadSpeaker text-to-speech technology with adjustable speech speed and MP3 download capabilities.

Collaboration Tools
Integrated G Suite for Education and Microsoft Office 365 tools enable users to share, save, and download content — including highlights and notes.

Citation Tools
Integrated directly into the user's workflow, formatted citations can be easily imported from single or multiple documents. MLA, APA, and Chicago-style citations are supported.
